Power Button

USB 3.0/2.0 Connector

Voltage Selector Switch

Warning: This product has a manually switchable power supply. Make sure that the power supply is set to the proper voltage for your region.

Power Input

Summary of Operation

Setup

1. Connect the USB 3.0 cable (included) to the USB port on the back of your duplicator and to an empty USB 3.0 port on your computer. If you do not have an available USB 3.0 port on your computer please see the section titled "USB 3.0 Host Adapter Installation" for information regarding the included USB 3.0 PCI Express dual port host adapter.
2. Check that the red Voltage Selector Switch on the back of the unit is set to the proper voltage for your area.
3. Connect the included power cord to the power input on the duplicator and into an available power outlet.
4. Insert the Aleratec 1:16 USB 3.0 Copy Tower Installation and Software CD into an available CD/DVD drive of your computer.
5. Click on *Install Aleratec USB Duplication Suite* to install the duplication software.
6. Follow the on-screen prompts to complete the installation.

Data Copying

This section will introduce you to Data Copying. For complete details, please read the *Aleratec 1:16 USB 3.0 Copy Tower Software User Guide* included on your Installation and Software CD.

1. Choose "Data Copy Only" from the drop down menu of your Aleratec software interface.
2. On the same screen, click "Add Files" to copy individual files or "Add Folder" to copy an entire folder.

NOTE: Make sure that your selected data DOES NOT exceed the capacity of the smallest flash drive that you are copying to. This will result in failure.

3. Click on the "Destination" tab to select each USB flash drive you want to copy to.
4. After selecting the destination drives, press "Start" to begin the duplication process.

For best results we recommend reading the section titled "Port Training" on page 28 of the *Aleratec 1:16 USB 3.0 Copy Tower Software User Guide* included on your Installation and Software CD.

USB 3.0 Host Adapter Installation

1. Turn off and unplug the power cable from the back of your computer.
2. Remove the cover to access the internal hardware of your computer.
3. Locate a free PCI Express slot and remove the metal cover plate on the rear of the computer case. (Your new USB 3.0 Host Adapter will fit and work with any PCI Express slot whether it is a x1, x4, x8 or x16 slot. Performance may vary with each slot.)
4. When installing the USB 3.0 Host Adapter, make sure to fasten the bracket as documented in your computer manufacturer's documentation.
5. Be sure to connect the SATA power connector from the power supply to the card as it does require additional power to function properly.
6. Place the cover back onto your computer.
7. Reattach the power cable to your computer and turn it back on.

Windows 7, Vista Driver Installation

1. Insert the Aleratec 1:16 USB 3.0 Copy Tower Installation and Software CD into an available CD/DVD drive of your computer.
2. Click on *Install USB 3.0 Host Adapter Drivers* to install the drivers for your new USB 3.0 Host Adapter.
3. Follow the on-screen prompts to complete the installation.
